Hello Heidi:

All three can attend both meetings.

The meeting with me and my staff will be focused on the status of DOGGR's review of aquifer exemptions and if there is time some discussion of program issues related to EPA's review. (8:30am to 9:45am)

The meeting with Jared will include several representatives from different EPA Region 9 offices - Enforcement, Air, Water - along with Jared. In addition to discussing the AllenCo site/operations, he is interested to have an overview of DOGGR as an organization (what you do, roles/responsibilities, etc.) and briefly discuss the challenges associated with urban oil/gas development. Jared has this from 10am to 10:45am on his calendar, but I think we'll have 1 hour.

Let me know if you have any questions.

Thanks,  
David

Good morning David,

Looks like Tim will want to have John (Cypress office) and Jerry (UIC Manager) in both meetings if okay with you. Please advise.

Also, can you send me the location details regarding tomorrow's meeting (address and room)? Thank you very much.

Sincerely,  
Heidi

Sorry I think I gave you some bad info.

I need Jerry for the meeting with David, John is optional. Jerry has the aquifer exemption details.

I need John for the meeting with Jared, Jerry is optional. John has the Allenco site details. It is possible Jared wants to meet just with me for the first part of this meeting.

Please get the time and location details to these guys and confirm with David that is okay to have three in each meeting. thank you.
